

Payrolling Services

You find them, we'll hire them.

ULTIMATE STAFFING SERVICES | CLERICAL, ADMINISTRATIVE & PROFESSIONAL STAFFING

Whether it's returning retirees, temporary employees or mission-critical professional/technical workers, payrolling is one of the most flexible and cost effective strategies to manage your contingent workforce.

In a traditional payrolling situation, employers have located the candidate, but do not want to add him/her to their own payroll. They require a back-office provider to become the employer for the contingent worker. Ultimate Staffing's payrolling services provide employers with this flexibility.

HOW IT WORKS

Payrolling services allow your company to retain complete control over pay rates, raises, reviews and supervision, while Ultimate Staffing assumes management of all payroll and insurance responsibilities, including Workers' Compensation and unemployment premiums.

In essence, you can focus on your key business functions, save money on recruitment costs, save time processing employment and benefits paperwork, and mitigate liability.

CLIENT BENEFITS

- Ability to utilize top talent you identify without hiring them permanently
- Save time processing paperwork/payroll
- Save money by reducing hidden payroll expenses
- Paper or Electronic timecard options
- Virtually unlimited invoicing options
- Customized reporting
- Applicant screening and background checks for a reasonable per candidate fee

AMBASSADOR FEATURES
